Approval of Minutes: Minutes from January 24, 2019 were approved (Motion – Rick Weldon, 2nd – Brad Benna)

Three businesses shared information about their companies:

ImQuest Biosciences (Todd Henkle and Dr. Bob Buckheit, Jr.)

ImQuest Life Sciences, Inc. is a leading drug discovery and development company with a highly focused strategy of developing a proprietary portfolio of novel therapeutic agents to target infectious disease and cancer. Our business model is to commercialize exciting new drugs with unique mechanisms of action both independently as well as in partnership with other pharmaceutical companies. The ImQuest Life Sciences pipeline includes exclusive licenses to highly potent compounds for the treatment of Human Immunodeficiency Virus (HIV), Hepatitis B and Hepatitis C Virus (HBV, HCV), Influenza, including Drug- and Antibiotic-Resistant Microorganisms, and Cancer. We are strategically developing Topical Microbicides to prevent the transmission of HIV and other Sexually Transmitted Infectious (STI) organisms.

Washington Laboratories (Michael Violette)

Washington Laboratories (WL) is an EMC Testing Laboratory in Gaithersburg and Frederick Maryland. Our Testing Laboratories specialize in Electromagnetic Compatibility (EMC) Testing, Electromagnetic Interference (EMI) Testing, Radio Frequency (RF) Testing, Product Safety Testing, Environmental Testing, Electrical Safety, Environmental MIL-STD 810 Testing, MIL-STD 461 Testing, Shielding Services, Wireless Testing, Certification, EMC Compliance Engineering, EMC for Nuclear and Engineering Training. We also provide On-Site EMI and EMC Testing and Evaluations. Our WL Academy provides many training courses including Webinars and resident courses at your facility or ours. Our Engineering Training tab lists currently available courses and we customize training to meet your particular needs – just contact us with your request. We also provide engineering support in dealing with your compliance issues including EMC/EMI, Safety and Environmental design reviews and support for your design team in mitigating issues.

Indivumed (Leonidas Leondaridis)

Indivumed GmbH was founded in 2002 by leading scientists with a drive to revolutionize cancer treatment through individualized therapy. As a physician-led, integrated global oncology company our experts leverage the world's premier multi-omics oncology database and highest quality biobank to develop a true picture of cancer. Our three divisions operate holistically with one another for the generation, characterization, and analysis of biologic samples from human cancer patients. Indivumed is headquartered in Hamburg, Germany, with a US-based subsidiary and a global clinical network.
